

## Engineers Lodge No.9493

### Lodges at Ripley Freemasons' Hall

Engineers Lodge No.9493

Okeover Lodge No.1324

### Who are we?

Our Lodge was consecrated on the 1st May 1993, founded by brethren in Masonry, whose profession is Engineering, and whose combined activities embrace many of its branches. The first Master of the Lodge belonged to one of the oldest branches of the profession, Mining, and then the first candidate to be initiated, and the first joining member, were engaged in two of its youngest, Electronics and Aviation.

### What we do?

We have a small but active Lodge backed up with some excellent social events that are always well attended.

### Why join us?

We welcome anyone from any background into our Lodge, not just exclusively from the many branches of Engineering.

You will share with our members friendship and good conversation on a wide range of topics.

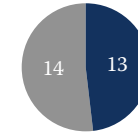

### Ripley Freemasons' Hall

Market Place  
Ripley
